

Applications of Math 12

Course Outline

Teacher: Mr. Paul Belanger

Text: Applied Math 30 Workbook (Cost \$15)

- This class uses a Workbook which has the homework questions and lessons inside. Upon purchasing the workbook you may write in it and keep it when the course is finished.

CALCULATORS: Math 12 Applications requires the use of a graphing calculator (TI-83 or TI-83 Plus)

EXPECTATIONS:

- Word hard, listen carefully and attend all classes – there is a lot to cover and the course moves at a fast pace.
- Take personal responsibility for your learning and enjoy the course.
- Keep notes in good order and keep all tests and quizzes for later studying.
- STUDENTS WHO ARE FAILING THE COURSEWORK WILL NOT WRITE THE GOVERNMENT EXAM.
- Respect yourself, respect your classmates and respect your teacher.

MISSED CLASS AND LATE POLICY

- Students who don't complete their homework for a particular unit (and complete the Practice Test) will NOT write the unit test. A mark of "I" (Incomplete) will be given and if the situation is not rectified by a date of my choosing a ZERO will be given as a grade for a particular test.
- If you miss class it is your responsibility to obtain any missed notes and make up any missed homework. I WILL TEACH A LESSON ONLY ONCE!
- Students who skip a test or quiz without a valid reason will receive an automatic zero.
- Those who miss a test or quiz for a valid reason must be prepared to write upon their immediate return to school.

| Provincial Exam | 40% |

PROVINCIAL EXAM

There is a provincial exam in this course that comprises 40% of your final grade. We will devote the last week of classes to preparing for the government final by writing past exam. The exam will be challenging so you must stay on top of your lessons and daily homework to have any chance of success on the final. The final exam has both a multiple choice and written section.
