- 12:30p.m. – 7:00 p.m.
- No appointment necessary – PLEASE HAVE YOUR CARECARD READY

Free Flu Shots for those at Highest Risk

In keeping with Provincial recommendations, the following priority groups will receive their **H1N1 VACCINATIONS** now:

- Pregnant women
- **Children and teens 6 months – 18 years old, inclusive**
- Persons with chronic conditions, 6 months and older
- Persons residing in remote communities; including all Aboriginal populations
- Household contacts and care providers of infants from birth to 6 months of age
- Household contacts and care providers of persons who are immunocompromised
- Healthcare Workers
- First Responders

SEASONAL FLU SHOTS are also being provided for those 65 years and older and those at risk of health complications from the flu.

Watch for More Clinics

Additional clinics are being scheduled for those at risk and for anyone who wants an H1N1 vaccination, once the priority groups have received their vaccinations.

For more info or upcoming clinics go to www.immunizebc.ca or call HealthLink BC at 8-1-1 or contact your local Public Health Office.
